The Fox Is In The Hen House

Today we are going to focus on CAIR, a front group of the Muslim Brotherhood. We will lay out the evidence of the ties between the two and what their program and goals are. We will be talking about the toolkit they have produced to try to get local government officials to pass two resolutions favorable to Muslims. One is to recognize the contributions of Muslims in America, which they say is a fight against "islamophobia." The second is the development of freedom of religion laws. We already have freedom of religion laws, but these are laws that favor Islam and Sharia Law.

We will be giving you some things that, if you are a God-fearing, freedom loving American, you need to stand against. These are things that you need to start doing something about instead of just saying that they are wrong. Action is necessary if we want to stop the advance of Islam in our nation.

Before we get started on this I want to comment on what this election cycle means to America. I feel that whether the next President is Hillary Clinton or Donald Trump, we are moving further down the

road of judgment. There are many instruments of judgment that God uses. Some of the reasons America us under the judgment of God are the acceptance of abortion, the codification of homosexual marriage, and our mocking of God. It seems like the voters just want their ears tickled. It doesn't seem like substance or character matter.

Whoever we get as the next President will be the one we deserve because we are not repenting as a nation. Our nation refuses to turn back to God and insists in moving farther way from Him. Our churches are not really engaging in changing the hearts of the people.

We need to understand that the White House is not going to save us. Our state capitals are not going to save us. Only God can save us from the coming judgment, and He will only do so if we turn back to Him.

My heart is grieved about where we are heading and the fact that people don't really seem to care about the character of our elected officials. Hillary Clinton should be in jail for the things she has done. Trump certainly doesn't have Christian character.

The bottom line is that God is still on the throne and is still sovereign. Whether America stands or falls, we must praise Him. We should be praying for our nation, for repentance, and for God's mercy.

We have reached a time where integrity and character don't matter. Voters vote primarily for what is in it for me. We almost long for the days of John Kennedy who said:

> Ask not what your country and do for you, ask what you can do for your country.

Something that tells us the condition of our country is the fact that and out and out socialist has done as well has he has in this election cycle. Also, the fact that Hillary Clinton can't tell us the difference between a Democrat and a socialist.

We have given up our education system to left-wing radicals. We have thrown our children to the dogs. We only have ourselves to blame. Instead of standing up against the teaching of evolution and other ungodly things in our schools, we withdrew our children and put them in Christian schools or started home schooling them. Since the majority of the children in America don't come from Christian families this means that the majority of them are being indoctrinated with ungodly values. We need to fight to take back our schools. Remember, it is our tax dollars that are paying for these schools.

It is time we stand up and do something about what is happening in America. The voters of today have been formed by our education system and we can see the results all around us.

It grieves be that there are professing Christians who are openly supporting people like Bernie Sanders. He is not only an open socialist who desires to destroy our system of government, he wants to increase the funding and access to abortion clinics like Planed Parenthood. It is beyond my ability to understand how those who claim to be Christians can support candidates who are openly against God.

Some say that we need to compromise so we can win. All of our compromising has not accomplished anything good. The more we compromise, the more we nominate moderates, the more we loose elections. We have lost understanding of the principles upon which this country was founded.

Who Is The Muslim Brotherhood?

After the fall of the Ottoman Empire in 1928, the Muslim Brotherhood was created in Egypt with the goal of reinstating the Islamic Caliphate. The Muslim Brotherhood, instead of doing it as a national caliphate, tried to do in trans-nationally. We now have a world-wide organization dedicated to a world-wide caliphate and Muslim world domination.

The Muslim Brotherhood came into the US through front groups starting in the 60's. It got its foothold through Muslim student organizations, which are on most secular college campuses. We now see them coming into high-schools across America.

Our government considers the Muslim Brotherhood a secular organization. Our government says they have not renounced their decades long commitment to non-violence. To see if this is true, let's look at their creed.

> Allah is our objective, the Qur'an is our law, the Prophet is our leader, jihad is our way, and death for the sake of Allah is the highest of our aspirations.

This is their creed, does it sound like a non-violent organization when jihad is their way and death for the sake of Allah is their highest aspiration? What part of this seems secular (non-religious)? Their goal is to establish Allah as the only god, the Qur'an (Sharia) as the only law, and Islam as the only religion.

Jihad is the method they plan to use to accomplish this goal. They will use physical jihad (war and violence), cultural jihad, and spiritual jihad. This is all spelled out in their Exploratory Memorandum.

This memorandum was discovered by the FBI in a raid on the home of a senior official of the Muslim Brotherhood. This memorandum is their play book, their marching orders, if you will. It was entered into court evidence in 2007. On page 7 it says:

> **4- Understanding the role of the Muslim Brother in North America:**
>
> The process of settlement is a "Civilization-Jihadist Process" with all the word means. The Ikhwan (Muslim Brotherhood) must understand that their work in America is a kind of grand Jihad in eliminating and destroying the Western civilization from within and "sabotaging" its miserable house by their hands and the hands of the believers so that it is eliminated and Allah's religion is made victorious over all other religions. Without this level of understanding, we are not up to this challenge and have not prepared ourselves for Jihad yet. It is a Muslim's destiny to perform Jihad and work wherever he is and wherever he lands until the final hour comes, and there is no escape from that destiny except for those who chose to slack. But, would the slackers and the Mujahedeen be equal.

This lines up perfectly with their creed. This is about takeover, not coexistence. Omar Ahmad, one of the co-founders of CAIR, said in 2006:

> Islam isn't in America to be equal to any other faith, but to become dominant. The Qur'an should be the highest authority in America and Islam the only accepted religion on earth.

This was said in a meeting where the information was not to go out to the public. He did not know that there was a reporter present when he said it. We need to understand that these groups have a public face and a private face. In public they are against violence and for peaceful coexistence, but privately they are for the overthrow of our Western values and making Islam dominant throughout the whole world.

CAIR Toolkit

Our title today is "The Fox is in the Hen House." The front groups for the Muslim Brotherhood are actually running the show when you think about the influence they have within our government, our national security apparatus, the media, our public schools and universities, etc. Today we are trying to expose their agenda going forward. They are now pushing for the things they have done in Europe.

In recent developments we have the United Kingdom labeling the Muslim Brotherhood as a terrorist organization. Even the United Arab Emirates, a secular run Muslim majority country, has listed the Muslim American Society and CAIR as terrorist organizations. Egypt, another secular run Muslim majority country, was overthrown in 2011 by the Muslim Brotherhood with the help of President Obama and Secretary Clinton. We saw the same thing in Iran. It is amazing to me that even some Muslim countries list the Muslim Brotherhood and CAIR as terrorist organizations, but this administration in America will not.

Let's make the connection between the Muslim Brotherhood and Hamas. Hamas is a terrorist organization on the State Department list. The Hamas charter makes it very clear that they exist for the destruction of the nation of Israel. This is their whole reason to exist. The charter also makes it clear that they are the Muslim Brotherhood. Hamas was founded, funded, organized, and initiated by the Muslim Brotherhood. In other words, the Muslim Brotherhood has raised up a militia, an army, for the express purpose of the destruction of Israel.

The Muslim Brotherhood also developed, the IAP (Islamic Association of Palestine). The IAP was started before Hamas. The Muslim Brotherhood is very good at working under cover. This is why I call the MB the most dangerous terrorist organization on earth. They go into nations and develop seditious front groups for the purpose of undermining the existing system of government.

Nihad Awad is the founder of CAIR. You can see his profile by clicking here. In this profile you will see his connections with the IAP, which is where he started. You will also see that he supported, both verbally and financially, terrorist activities. CAIR in an unindicted co-conspirator in the Holy Land Fund trial.

The Muslim Brotherhood started Hamas. As Hamas' charter is clear as to its purpose, the Muslim Brotherhood's charter is also very clear. It also says that its purpose is to wipe Israel off the face of the

earth. We also see from the Explanatory Memorandum that they are committed to the overthrow of America. The way we see Hamas and the Muslim Brotherhood in America is CAIR. It is important to see this connection because CAIR is working as Hamas in America. This is how they got caught in the Holy Land Foundation trial. Millions of dollars were being raised and funneled to Hamas, which is a federal crime.

Nihad Awad used to live in Chicago, and his is where the headquarters of CAIR used to be. When Obama became President they moved to Washington DC, just two blocks from the White House. Could there be some kind of connection? We believe that the Muslim Brotherhood has been given complete cover by Obama.

Nihad Awad left the IAP and moved to America to found CAIR. CAIR has positioned itself as the civil rights protector for Muslims. Guess who they have advising them: Al Sharpton and other civil rights groups from the 1960's. These groups successfully got minorities better rights than the rest of the citizens in America. CAIR is trying to accomplish the same thing for Muslims.

Whether you realize it or not, the civil rights movement has succeeded in getting laws passed that promote inequality. Minorities have, by law, more privileges than the majority.

You could consider CAIR like the ACLU for Islam. If you say anything they don't like about Islam, they will come after you if they can. If they can't come after someone legally, they will use the media to attack them.

If you remember the shooting in San Bernardino, CAIR was having press conferences withing 2 hours. They were immediately trying to sell us that this was not a terrorist attack.

Let's take a look at the Holy Land Fund trial. The case started in 2007 in Dallas, TX. It was a federal case under the Bush administration. Between 130 and 140 people were sentenced to lengthy jail terms for sending millions of dollars to Hamas. These people were directly tied to the Holy Land Fund. They were about to start prosecuting the subgroups and people and groups that were also involved. These were listed as unindicted co-conspirators.

Why are these groups call unindicted? It is because in 2009 we had change of administration when President Obama took office. Eric Holder became Attorney General and he stopped the prosecution just before they got to CAIR, ISNA, and other Muslim groups.

I am praying that, when we get a new President, Christians will rise up and demand that the prosecution be restarted. The evidence is there. CAIR has petitioned the court saying it is prejudicial and slanderous for them to call them unindicted co-conspirators and asked that the label be removed. The court said there is enough evidence to prosecute and will not remove it.

What CAIR is trying to do.

I want to look a little closer at the two resolutions CAIR is trying to get passed by state governments. They have developed a toolkit of about 20 pages to help Muslims approach local governments and get them passed. They are teaching them to be lobbyists.

The first resolution is one that will recognize the contributions of Muslims in each state nationwide. The second resolution is to reaffirm the right of citizens to practice their faith within the law and free of government interference. This already is the law, but they want a statement about this applying to Muslims in particular.

On Page nine of this toolkit we find a sample resolution the states to pass. Here are part of what it says:

> *Whereas the state [State] has a proud history of sponsoring individual religious freedoms and is strengthened by diverse religious, political and cultural traditions of its residents, including residents who practice Islam…*

They want to talk about the contributions of Muslims in this country. OK, let's talk about that. What they want to talk about is that 15% of the African slaves that were brought here were Muslims.

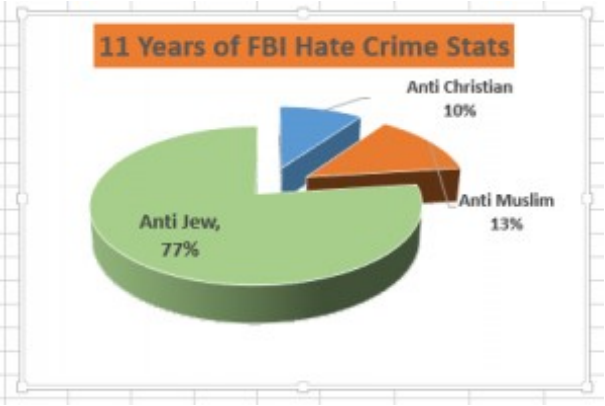
Do you know that America's first foreign ware was against Muslims. It was against the Barbary Pirates in North Africa. When our trade ships went near North Africa these Muslim pirates would seize our ships and hold them for ransom. If the ransom wasn't paid the crew was taken into slavery. This war want on for 20 years. We have a series on this war at http://www.fortressoffaith.org/blog/2014/12/29/barbary-pirate-war-part-1/.

Our second President, John Adams, paid the ransoms. It was bankrupting the national treasury. It was our third President, Thomas Jefferson, that did something about it. After he met with the Algerian Ambassador, who explained that the reason they do this, even though that US had shown no aggression against them, was because is was commanded by their religion. He said that their Prophet, Muhammad, had told them to make war with them that don't believe in their god. He went on to say that they were to extort money from us.

When Thomas Jefferson became President, he created the Marin Corps for the express purpose of putting a stop to this. This is why the Marin Corps anthem says "from the halls of Montezuma, to the shores of Tripoli." Tripoli is in Libya, a Muslim country.

We also need to talk about the issue of slavery. How did these slaves first become slaves? They were captured by Muslims in Africa. They brought them to the coast and started an international slave trade. I believe that the brutal treatment of the black slaves by whites was caused by the brutal treatment of the white slaves from America and Europe by these African Muslims. Although is doesn't make it right, I believe that it was a recompense. If they want to talk about the history we need to make sure that the

whole truth of history is told.



They also want to make an issue of hate crimes in America. Again, we need to know the whole truth about the hate crime issue. I have been following the hate crimes statistics from the FBI for many years. There are 11 years of statistics available. Let me tell you what they are. If you add up all of the Christians that have been victims of hate crimes it works out to be about 10% of the total. With Muslims it works out to be only about 13% of the total. There is only 3% difference between Muslims and Christians who are victims of hate crimes. The real story is the hate crimes against Jews in this nation. We find that 77% of the religious hate crimes in America are against Jews. This is up from 71% in previous reports. We see who the real victims of hate crimes are in this country.

Who are those who are victimizing the Jews? Could it be the Muslims? I don't know.

The reality is that the number of hate crimes against Muslims is small, especially when compared with the hate crimes against Jews.

The second resolution is to reaffirm the right of citizens to practice their faith within the law and free of government interference. This already is the law, but they want a statement about this applying to Muslims in particular.

The reason they want to get these passed is that some states have put roadblocks in their laws to stop Sharia Law in American courts. States have done this because many courts have given accommodation Sharia Law in their courtrooms. Ten states have passed "American Law In American Courts" initiatives to keep this from happening. In addition to these 10 states, Washington State has passed it partially for lower courts. American Law In American Courts blocks the accommodation of foreign law if it violates the constitutional rights of the citizens in these states. Why do we need such an initiative? This should be a given, but unless this is clearly stated, our courts and give accommodation to foreign laws. CAIR's whole purpose is to push back against this initiative.

It is interesting that since this initiative has been passed, starting in 2010, CAIR has not once tried to challenge it in court. They know that it cannot be challenged because American laws trump any foreign laws. The states that have not passed the initiative are still vulnerable because they have not specifically said so. It is not a problem in the federal courts because the Constitution says that it is the supreme law of the land. Since certain things are left to the states, it is necessary for the states to put this into their laws.

In Washington State, CAIR, for the last six years, has been trying to take over Martin Luther Kink Day and call it Muslims Day. They want us to believe that they are the new civil rights cause.

Because some states have passed the American Law in American Courts legislation, they are trying to promote Islamic laws under the guise of religious liberty. It is not just about religion, it covers every part of our lives. If we incorporate Sharia Law to our legal system the Constitution is destroyed. Sharia Law is not compatible with our laws. The Bill of Rights will loose all of its meaning. Our freedoms of religion and speech will be completely gone.

They have started a new group called the United States Counsel Of Muslim Organizations. Muslims have now formed their own political party. This is something we have seen in Europe. Muslims form political parties and get people elected to political office. We have seen this happen here in America. Dearborn, MI is more than 50% Muslim and has a majority Muslim city counsel.

CAIR is part of this political party. He, and others from this party, have been in Washington DC pushing for legislation that criminalizes what they call “islamophobia.” This is consistent with Islamic law because Islamic law says that if you say anything about Islam that they find offensive, even if it is factually true, it is a criminal offense.

Hillary Clinton has tried to push this same thing through the conferences she has co-chaired on defamation of religion laws. They are trying to criminalize the First Amendment.

The Muslim Brotherhood and its child groups, like CAIR, are brilliant in their thinking. They understand how to infiltrate and influence our government and laws. This change in their thinking and actions shows that they believe they are gaining the upper hand.

Muslims only comprise about 1% of our population, yet we allow them to wield a tremendous amount of power. We are foolish if we don't do something to stop this.

One of the tools they use is fear. They use threats of jihad to get us to cower before them and give in to their demands.

Before I close today I want to bring to your attention some things that are happening in Europe. With the flood of immigrants into Europe, the word is out that the door to Europe is open through Syria. Reports tell us that eight out of ten on the so-called refugees are not Syrians. They are not from a war-torn country where they are true refugees.

The big development is Turkey. Turkey has been negotiating with the European Union for a number of years. They want to be a full fledged member of the EU. It was supposed to happen back in 2012, but it was pushed back because of the conflict in Syria.

The EU has made other deals with Turkey. One of them is fully open borders between Turkey and the rest of Europe. Back in 1010 it was estimated that form two to four million Muslims would pour into Europe if Turkey became a member of the EU. They haven't become a member, but within weeks the borders will be opened. Once this happens these refugees will no longer have to come through Syria. Turkey has open borders with all of the other Middle Eastern states.

We will be dealing with Turkey and Europe in upcoming articles and broadcasts. England is threatening to pull out of the EU, which could spell the end of the European Union financially. You can be sure that when these Muslim refugees can no longer be cared for because there is no more money, It will get ugly.

We need to understand that once the Muslim refugees get into Europe, it opens the door into Canada and the United States. The Canadian Prime Minister and President Obama's attitude toward the refugee situation assures problems. They are interviewing 600 refugees a day in Turkey. How can they possibly screen that many?

Be forewarned, civil war is possibly coming to Europe if things don't change. Stay tuned, we will keep you informed.
